PRODUCT DESCRIPTION

Tag Zap® Citrus Graffiti Remover Liquid is a solvent solution designed to dissolve graffiti and vandalistic stains such as spray paints, silicones, dyes and marker pens from painted and non-painted surfaces.

Tag Zap® Citrus Graffiti Remover Liquid produces excellent results when used on surfaces protected with Tag Zap® Graffiti Barriers. See Tag Zap® Graffiti Barrier label and product specification sheet for application procedures. These products complete the Tag Zap® Graffiti System.

Precautions: Read the entire material safety data sheet and product label for a more thorough evaluation of hazards.

Fully protect all adjacent surfaces including floors and general work areas. Protect vegetation, plants and adjacent surfaces from coming in contact with Tag Zap® Citrus Graffiti Remover Liquid. Beware of wind drift onto adjacent surfaces and pedestrians while applying and rinsing Tag Zap® Citrus Graffiti Remover Liquid. Barricade work areas to prevent pedestrian contact.

Note: Product efficiency is slower in cooler temperatures.

TECHNICAL DATA

Color/Form: clear liquid

Coverage: 100 to 150 square feet per gallon, depending on the vandalistic stain to be removed.

Packaging: 16 ounce spray, one, and five gallon containers.

INSTALLATION

Preparatory Work: Before beginning overall project, test panels should always be made on all elevations to conclude satisfactory performance. User shall determine the suitability of the product for its intended use and assumes all risk and liability whatsoever in connection therewith.

Removal Procedures after Barrier Treatment:

1. Scrub graffiti with a water soaked scouring pad in a circular motion.
2. Adding a detergent such as ABR Building Wash 3 may be helpful in removing stubborn stains.
3. If graffiti remains on the surface, follow the application steps below.

Application:

Apply a generous amount of Tag Zap® Citrus Graffiti Remover Liquid to a soft cloth or rag. Agitate using a stiff bristle brush if necessary. Continue applying to a small area (1 sq. foot) in a circular motion for up to 15 minutes, or until the graffiti begins to soften and dissolve.

Caution: leaving Tag Zap® Citrus Graffiti Remover Liquid on the surface too long may result in softening of the underlying painted surface or cause discoloration. Use care in applying this product. Apply to the graffiti stained area only. Allow Tag Zap® Citrus Graffiti Remover Liquid to remain on the surface until all stains are dissolved. After removal, immediately rinse the treated surface area with a clean sponge and water.

Note: cleaning action will stop after wiping with a damp sponge or cloth.

AVAILABILITY

Available through a network of distributors, dealers and representatives established in principal cities across the United States, Canada and Japan.

NOTICE: the information and recommendations made herein are based on ABRP, Inc., research and the research of others, and are believed to be accurate. However, no guarantee of their accuracy is made because ABRP, Inc., cannot anticipate every possible application of ABRP, Inc., products, nor anticipate every variation encountered in project surfaces, job conditions, and methods used. For this reason, purchasers shall make their own tests to determine the suitability of such products for a particular purpose. Purchasers assume all risk of use, application and handling of products.
